e-MINDER Project

Electronic Commerce Leveraging Network for Developing European Regions

Project Objectives: To foster the SME's involvement in the new economy by establishing an e-commerce network of Leveraging Centres which will act as e-commerce catalysts, technology providers and observatories for each European Region. The following goals will be achieved:

- Increase e-Commerce and develop an ICT Observatory.
- Assess ICT regional penetration.
- Change educational curriculum for today's teenagers, tomorrow's entrepreneurs.
- Inform and advise SMEs.
- Integrate a B2B & B2c Electronic Mall.
- Elaborate a Leveraging Centre Handbook.
